

INSPECTEAM Hydro

**YOUR SECOND PARTY MECHANICAL
& ELECTRICAL SPECIALIST**

www.inspecteam-hydro.com

Mechanical and Electrical Inspection

The role of INSPECTEAM Hydro is to monitor and inspect hydropower equipment on behalf of our clients **as an independent organization**.

We ensure that all aspects of the manufacturing process fully meet the client's requirements, in compliance with the Technical Requisition and with applicable Quality Plans or Inspection and Test Plans.

Expediting

INSPECTEAM Hydro monitors the development of all operations of the manufacturing process and **identifies all bottlenecks** that could impact on delivery time.

Our Expeditors are committed to helping our client reach the contractual delivery time while achieving the requested quality levels.
